PLEA FOR BEEKEEPING.

there is No Good Reason Why Every Farmer Should Not Keep a Few Hives.

Epitomist, has much to say in favor of beekeeping, and regrets that few-er farmers keep them than in former times. She says: "I know that it is claimed by some writers that the honey crop is on the increase. Per-haps it may be in one way. On a large scale here and there private enterprise may be furnishing much ! honey for the city markets, but that which I speak of relates to the keeping of enough bees for our own home use. Almost every farmer in Sheriff to summon a special grand lng the strike will be removed, test in which \$25,000 is to be paid pair and other work is a turning home use. Almost every larmer in jury to meet in Lexington next Strike leaders are confident that to those who make the nearest lathe. At little expense a sewing many with this healthleat of sweet foods. but in these days he does without. And yet what is raised on the farm which so amply pays for itself, with so little labor and outlay of feed, tadies say that the eating of much honey was a preventive of cancer. I cannot say as to its medicinal qualitles in this line, but it will allay inflammation and thus may keep down disease of an inflammatory character along the digestive tract. "Why do not more people keep

bees? There was a time when old-fashioned hives and cross bees might have frightened some people away from the industry, but now bees are progressing along the line of civilization and education. They seem to understand that the sting, and the every subscriber who pays up or and e. Fig. 1; also drive wheel and them to go to battle with, but to add the drop to the honey which timates with same, may enter as drel has a small hole drilled in the are singularly docile in this line; the 171,980, increase of 58,500; Russia "Blessed are they who die in the many additional estimates as he end outside of the balance wheel, in Syrian bee still more so. There are third, 107,347, increase of 22,000; Lord."

"Blessed are they who die in the many additional estimates as he end outside of the balance wheel, in Syrian bee still more so.
